

## **APRIL 8, 6:00 PM**

# **BUILDING A WORKPLACE WARDROBE**

In a new CareerBuilder.com survey, 41 percent of employers said that people who dress better or more professionally tend to be promoted more often than others in their organization.

If you struggle with any of these questions:

- What does business casual mean for women?
- What should I wear to reflect the professional, “promotable” image I want to present to my company?
- If I’m on a limited budget, what basics should I invest in to build my wardrobe?
- Do I have to wear a statement necklace?
- Are there certain ways to wear my hair that are more appropriate at the office than others?

Then this event is designed for you!
